BenQ GL2450HM LED Monitor

Sophisticated Harmony With Layering Design

GL2450HM is not only bringing great visual performance to your workstation and house, but also a harmony of a variety of visual elements. The breakthrough layering design comes with a clearly sculptured countenance, as well as a crispy shaped oval base stand which effectively reduces impressions of bulkiness.

LED LED Leads the Way

LED backlighting offers significant advantages over the CCFL technology used in traditional LCD monitors. These advantages encompass not only performance metrics such as higher dynamic contrast, no light leakage and flicker-free, but also environmental factors, mercury-free and power saving 14.3%.

Senseye® Technology

Experience the truest colors of the world with the BenQ Senseye® Human Vision Technology. With the help of its six proprietary calibration techniques, Senseye® 3 delivers only the best viewing quality in each of its six pre-set viewing modes – Standard, Movie, Game, Photo, sRGB, and Eco – with the Eco Mode especially designed to save power and money.

12M:1 Ultra High Dynamic Contrast for Depth and Definition

The GL2450HM comes with an ultra-high dynamic contrast ratio of 12,000,000:1 to add color depth and definition to darkened and complex visuals, so that everything you see – from the brightest white to the darkest black – is perfectly rendered to deliver the most incredible picture performance.

2ms Superior Response Time Gives You Truly Dynamic Images

With a speedy 2ms response time, even highly dynamic video is rendered with smooth, fluid motion without ghosting or other artifacts to distract your view.

Perfecting Your Audiovisual Enjoyment with Speakers

Whether you're listening to music or watching your favorite film, simply turn on the speakers to experience the audiovisual fun!

HDMI Multimedia Interface

The latest HDMI high-speed multimedia interface makes these monitors incredibly convenient to use – now you can enjoy digital entertainment effortlessly even with additional multimedia equipment in the future.
